PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of experience building web applications, specialized in frontend (React, Next.js and TypeScript). I have built admin dashboards, sales platforms and e-commerce products for insurance, banking, fintech, aquaculture and delivery companies in Colombia, Ecuador and the United States. On the backend I work with Node.js, NestJS, Express and PostgreSQL. I focus on scalable component architecture and fast, polished user interfaces.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), Angular, Vite, HTML5, CSS3, Tailwind CSS, SASS, Bootstrap

State & data: Zustand, TanStack Query, Axios, REST APIs, Socket.io, i18next

UI & animation: Framer Motion, GSAP, Ant Design, HeroUI, Recharts, ApexCharts, Mapbox, dnd-kit

Backend: Node.js, NestJS, Express, Prisma, TypeORM, Sequelize, JWT

Databases: PostgreSQL, MongoDB, MySQL

AI: Spec-Driven Development (SDD), development with AI agents

Tools: Git, GitHub, Docker, Figma, code reviews and pull requests

Languages: Spanish: native • English: A2

WORK EXPERIENCE

Senior Frontend Developer • Shepwashi

Jul 2024 – Present

Remote • Weston, Florida, USA

- Define the frontend architecture (reusable components, Zustand, TanStack Query) and work with the backend team integrating REST APIs.
- Built the UI of the Labreicis shrimp-farming production dashboard: phases, supplies, tasks, warehouses, sales and reports.
- Created the frontend of Shepwashi's internal dashboard (projects, employees, commissions, expenses and profitability) with React and TypeScript.
- Implemented the policies, users, branches and customers modules of the Banco Bolivariano dashboard, with sales analytics.
- Laid out the Ecuasuiza platform and wired it to its API: an insurance sales website and an admin panel for agents with drag & drop.
- Developed Shepwashi's corporate website with Next.js, Tailwind CSS, GSAP and Framer Motion, applying on-page SEO.

Frontend Developer (freelance) • Eranpay

Sep 2025 – Dec 2025

Remote

- Built the frontend of Eranpay's fintech dashboard (transactions, cards, companies, e-commerce, orders and support) with React, TypeScript, TanStack Query and Zustand.
- Integrated multi-language support (i18next), light/dark themes, Mapbox maps and real-time updates with Socket.io.

Frontend Developer • TodoServy

Apr 2023 – Jul 2024

Remote • Medellín, Colombia

- Designed and coded the frontend of TodoDomi, the first delivery app in the Galápagos Islands (React, JavaScript, SASS).
- Created views for the TodoServy services directory (JavaScript, Bootstrap), connected to the Laravel backend.
- Collaborated with the development team on reusable components, code reviews and pull requests.

Full Stack Developer • Freelance

Jan 2021 – Jul 2023

Remote • Villavicencio, Colombia

- Delivered the Distripharmacias del Llano e-commerce with sales, orders, payments and medicine inventory (Angular, MongoDB, Socket.io).
- Programmed REST APIs with Node.js, Express and MongoDB, and responsive interfaces with Angular, HTML, CSS and Bootstrap.
